

## What Should I expect at Region DECA Competition?

- Your advisor will check your group in when your DECA chapter arrives. Each student will be given a program.
- All role play and testing only event competitors will report directly to the testing area. Please make sure that you are sitting in the correct competitive event category when you take your test. You should bring your calculator and pencils. You will have 90 minutes to complete the test. Do not rush through the test.
- Job Interview, Marketing Decision Making, and Business Speech competitors will not take a test. Check your program to find out when and where to report for your competition.
- After finishing your test, you will report to a specified location to sign up for your role play time slot. Check your program to determine this location.
- Arrive 10 minutes before your role play time. When your name is called, you will enter the role play prep area. You will have 10 minutes to prepare for your role play. When your 10 minutes is up, an adult assistant will take you to the role play room. Your role play will take 5 to 10 minutes. You may take your role play notes in with you.
- After everyone has finished their role play events and the judge's scores have been tallied and added to the test scores, the awards ceremony will begin.
- At the awards ceremony, you will find out if you placed high enough to compete at the state DECA competition.
- **GOOD LUCK!!!**
