

Thank You from Georgia DECA Inc.!!!

Dear DECA Judge,

To say "Thank You" does not begin to tell you how much Georgia DECA appreciates the time and energy you put into assisting with the DECA Competitive Events. Each of you whether you read student written events, participated in role plays with students, or listened to student presentations helped to make this year's conference a success. From your experience in the "real world" you helped each student to see how what they do each day in the classroom directly relates to their future.

The feedback you provided to each student will help teachers improve on the skills the students will need as they move forward in their education and in their chosen career field. One of the most important elements of our Marketing programs and our DECA organization is to help students see the relevance in what we teach and to "buy in" to the benefits that can be gained from our programs. Each of you play a vital role in helping us accomplish this for our students in Georgia.

Thank you again for taking the time to volunteer during the DECA State Career Development Conference. You are an important part of helping to create our future leaders in marketing, management, and entrepreneurship. We look forward to working with you in the future as we continue to grow our programs and reach out to more and more students.

Sincerely,

Yvette Churchill
